***Below are a few things to keep in the back of your mind when submitting course changes via TEAMS to your designate on your proper date:***

- *Any early submissions via teams will not be looked at... submissions must be made on the properly scheduled date and time and to your properly assigned grade level admin*

- *Grade 9 classes have not been listed as students must all take the same courses and they have been split into class patterns that travel together throughout the school year. We have 13 separate grade 9 class patterns this year.*

- ***When looking to do scheduling adjustments to your courses, please do not use the master timetable to recreate your entire class schedule, but rather to find courses that you need to take and where they are located.***

- *The administration team at LCI is happy to do their best to get students a timetable that suits their needs and optimizes their learning. Shifting a spare or picking up an extra course are good reasons to request a change and we will do our best to accommodate those requests. Getting into classes just to be with your friend can be taxing and take away spaces for others that have no other option.*

- *Please note that there may be more than one classes offered in the same block **(i.e. English 10-1 is listed once in block 5, but is offered in two separate classes)**. Therefore, if you request English 10-1 in block 5, your placement will be determined based on keeping balanced classroom sizes.*

- *Due to the growing population of LCI, we must limit the number of accelerated courses that students wish to take outside of their grade level, to ensure that students within that grade level get proper placements. Again, we will*
